# TRU-SCAPES WIFI TRANSFORMER INSTRUCTIONS

[Step-by-Step Guide](#)

# OVERVIEW

## Unboxing & Components:

Understand what's included and the key features of your transformer.

## Installation Steps:

A step-by-step guide for securely mounting and wiring your transformer.

## WiFi Setup & Connectivity:

Instructions on how to connect your transformer to the TRU-Scapes app via WiFi.

## App Control & Renaming:

How to use the TRU-Scapes app to control your lighting system.

## Adding Schedules:

Set up automation and manual controls for maximum efficiency.

## Troubleshooting & Safety:

Solutions for common issues and maintenance tips to keep your transformer working perfectly.

# UNBOXING & COMPONENTS

## Inside the Box:

- 400W WiFi Transformer: The main unit for controlling your outdoor lighting.
- Power Cord: To connect your transformer to a standard 120V power source.
- Mounting Hardware: Screws and brackets for secure installation.
- User Manual: A printed guide for setup and troubleshooting.

## Key Features:

- WiFi Connectivity: Control your outdoor lights from anywhere with the TRU-Scapes app.
- Multiple Zones: Customize power distribution across different lighting zones.
- Weatherproof Housing: Durable and designed to withstand outdoor conditions.
- Smart Scheduling: Automate lighting schedules based on your needs.
- App Control: Adjust brightness, turn lights on/off, and create groups for easy management.

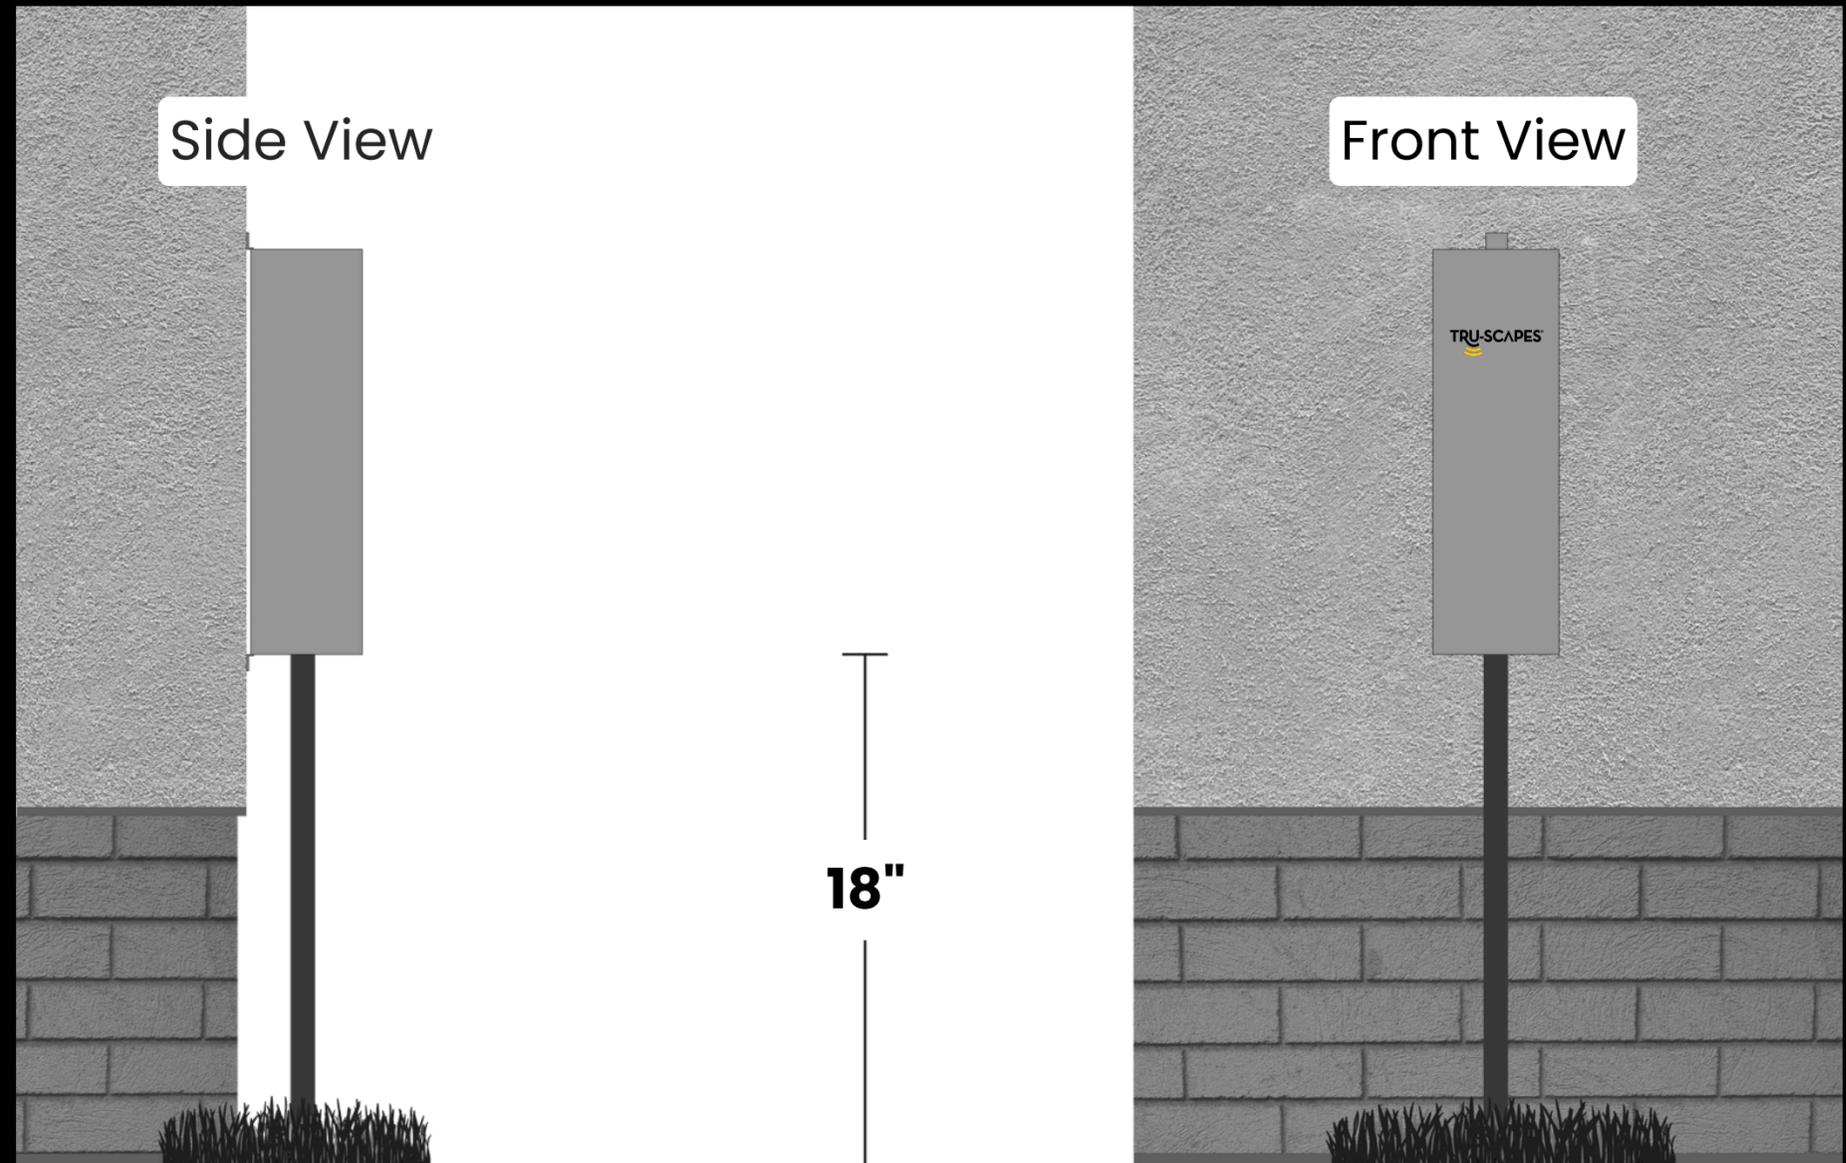

# INSTALLATION STEPS

## Step 1: Choose a Mounting Location

- Choose a dry, ventilated area to prevent moisture and overheating.
- Position near a 120V power source for easy electricity access.
- Maintain at least 18 inches of clearance for airflow.
- Wall-mounting is ideal for close installations, minimizing wiring and ensuring efficiency.
- For distant installations, use post mounting with conduit protection for wiring safety.

## Wall-Mount Installation

for steps 2 and 3

# INSTALLATION STEPS

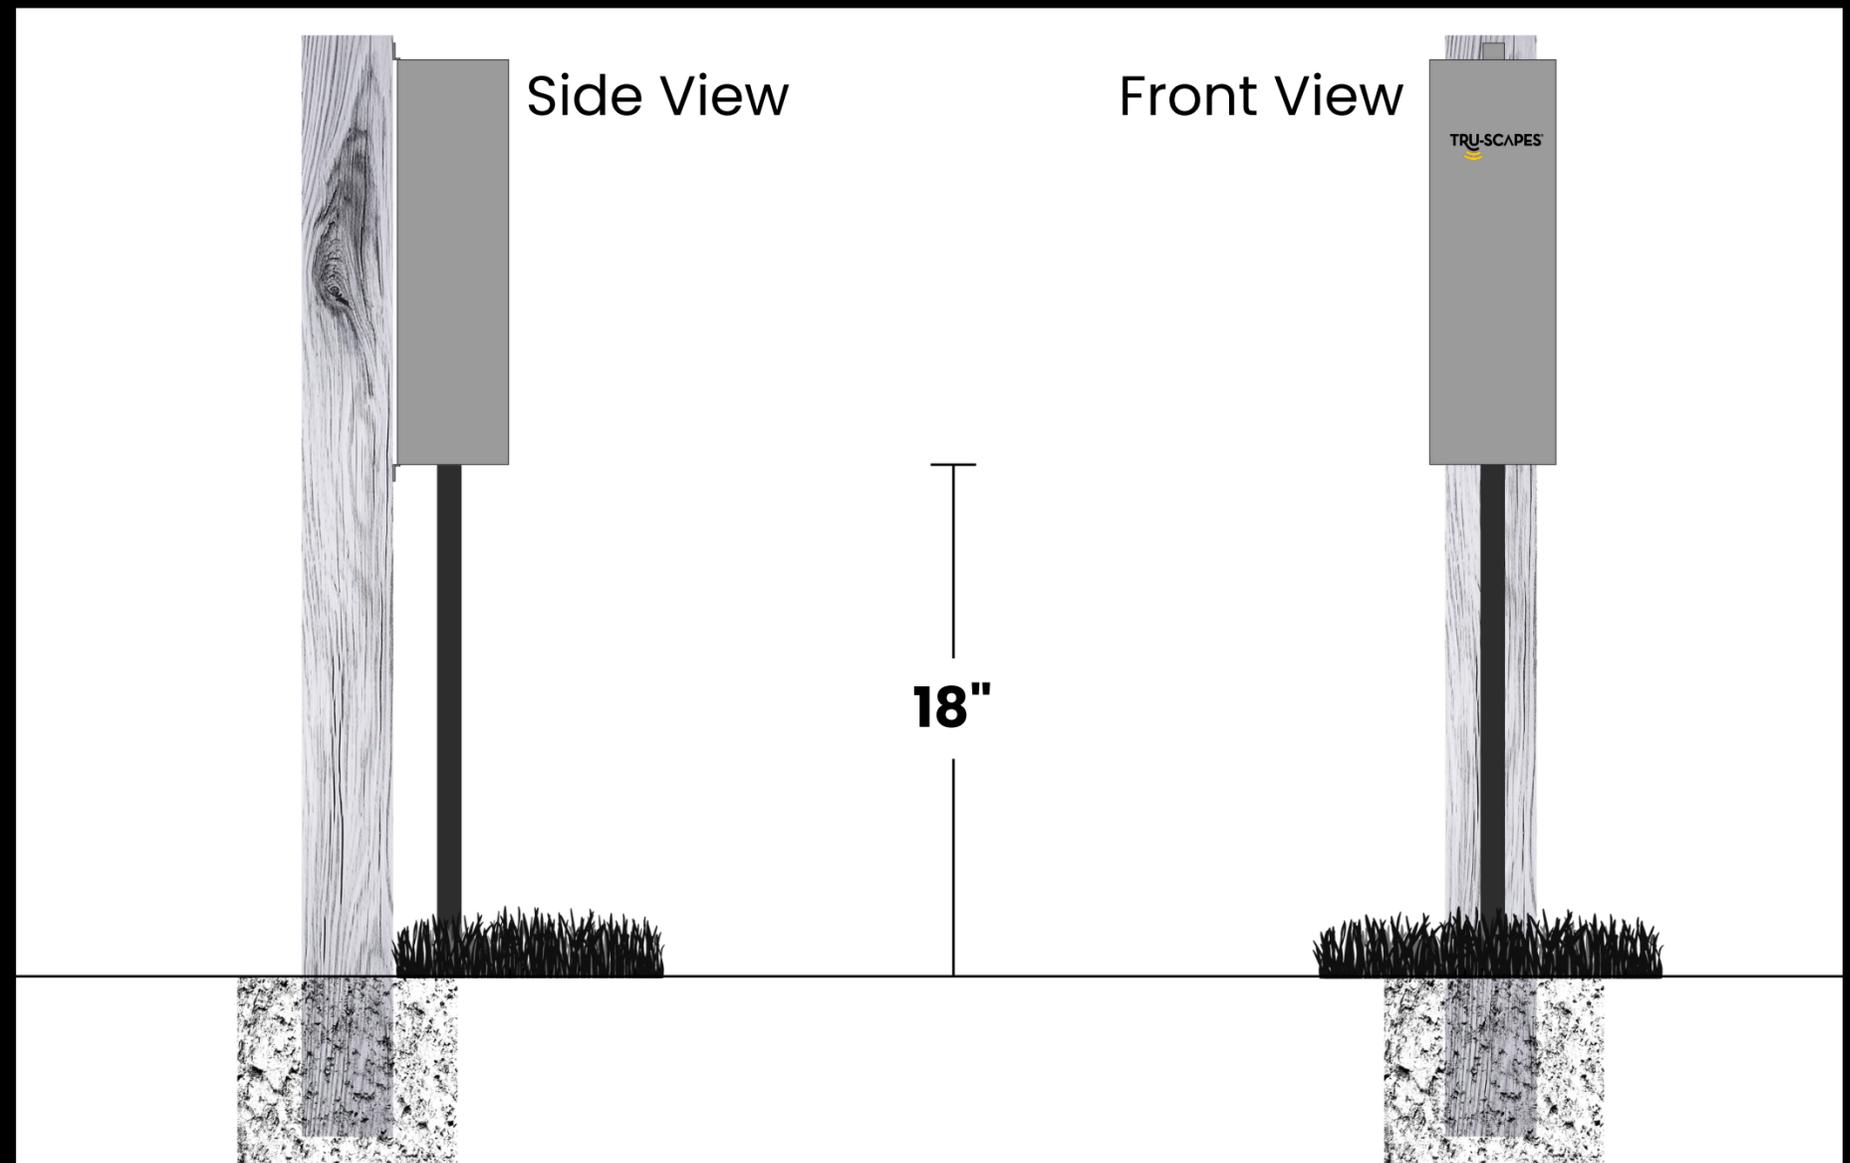

## Step 2: Secure the Transformer

- Use the included mounting hardware to attach the unit to a secure surface.
- Ensure the transformer is installed vertically to prevent water buildup.

## Step 3: Connect Your Lighting System

- Attach low-voltage cables to the designated output terminals.
- Double-check all screw and clamp connections to ensure a solid connection.

## Post-Mount Installation

# WiFi SETUP & CONNECTIVITY

## Step 1: Download Tru-Scapes

- Available on iOS & Android.
- Search for "TRU-Scapes" in the app store and install it.

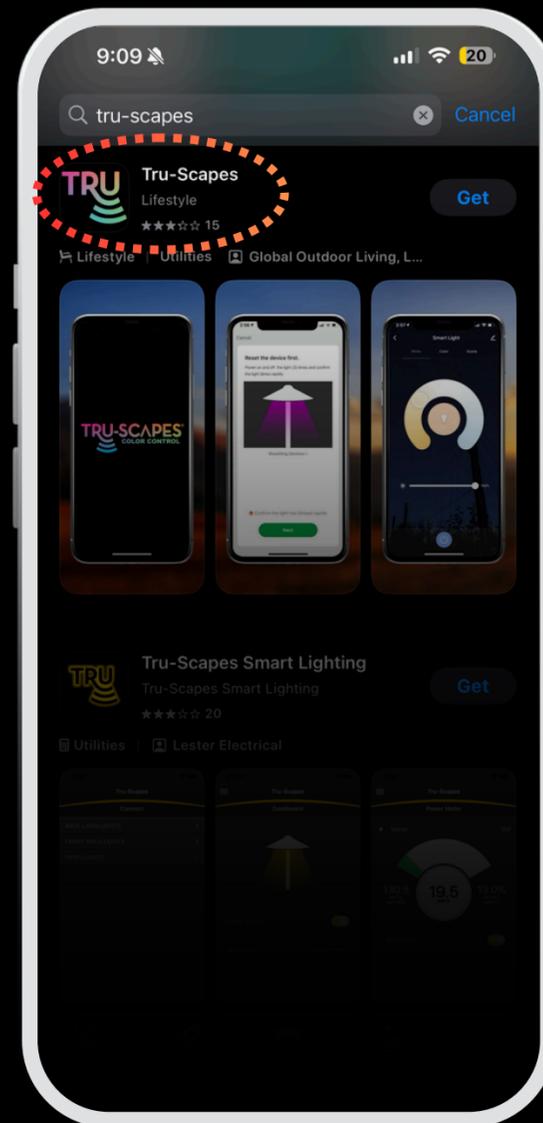

## Step 2: Activate WiFi Mode

- Press and hold the button located to the left of the WiFi symbol until the light blinks.

## Step 3: Wait for Green Light

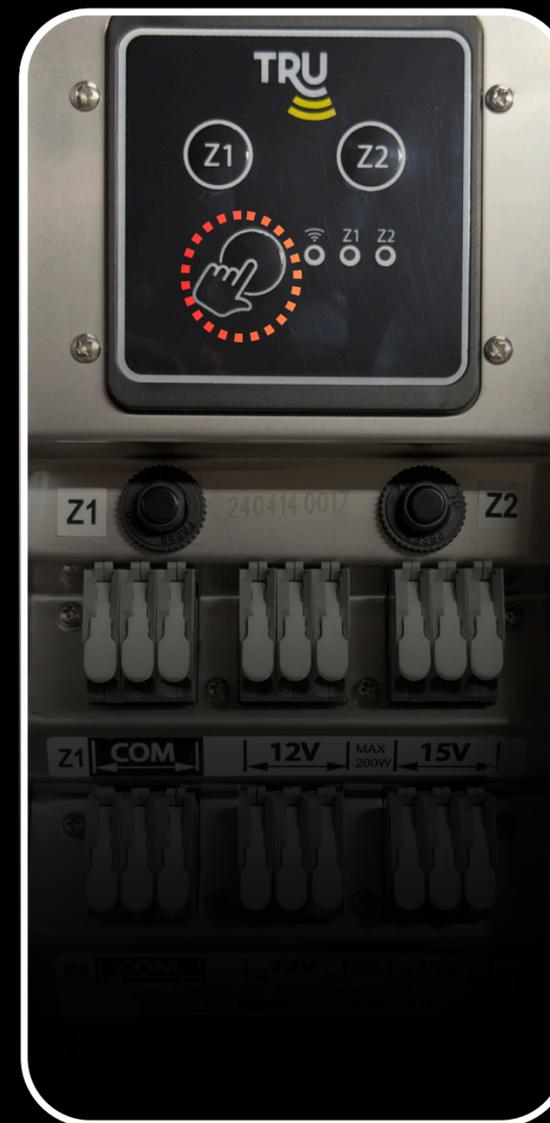

- Hold the button until the green light next to the WiFi symbol blinks.
- A blinking green light indicates the transformer is searching for an app connection.

Step 1

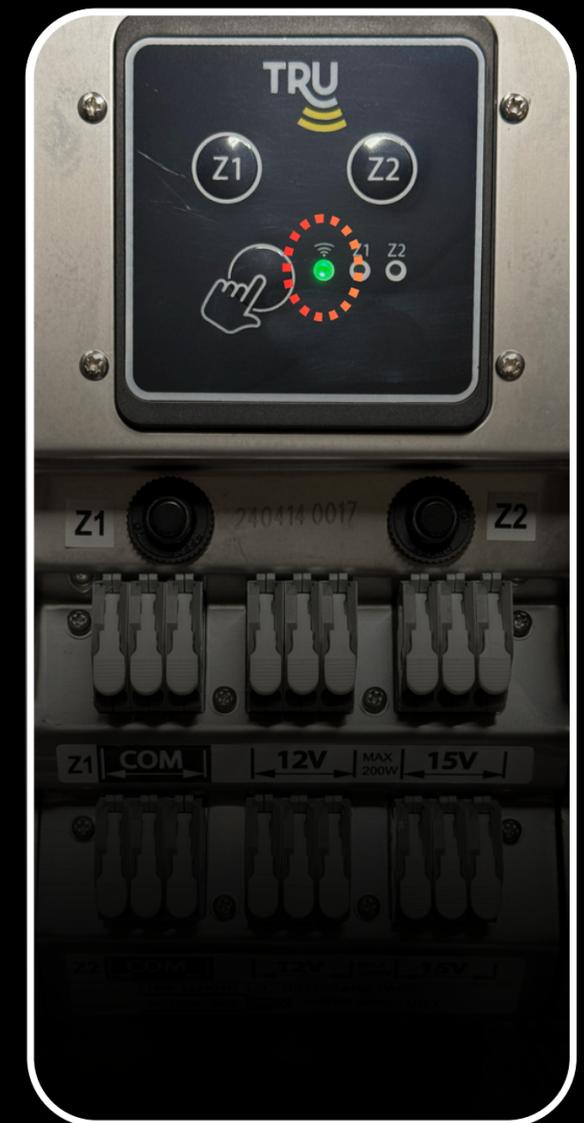

Download Tru-Scapes

Step 2

Press and Hold Button

Step 3

Wait Until Green Light Blinks

for steps 4 - 6

# WiFi SETUP & CONNECTIVITY

## Step 4: Add New Device

- Open the TRU-Scapes App.
- Tap "Add New Device".

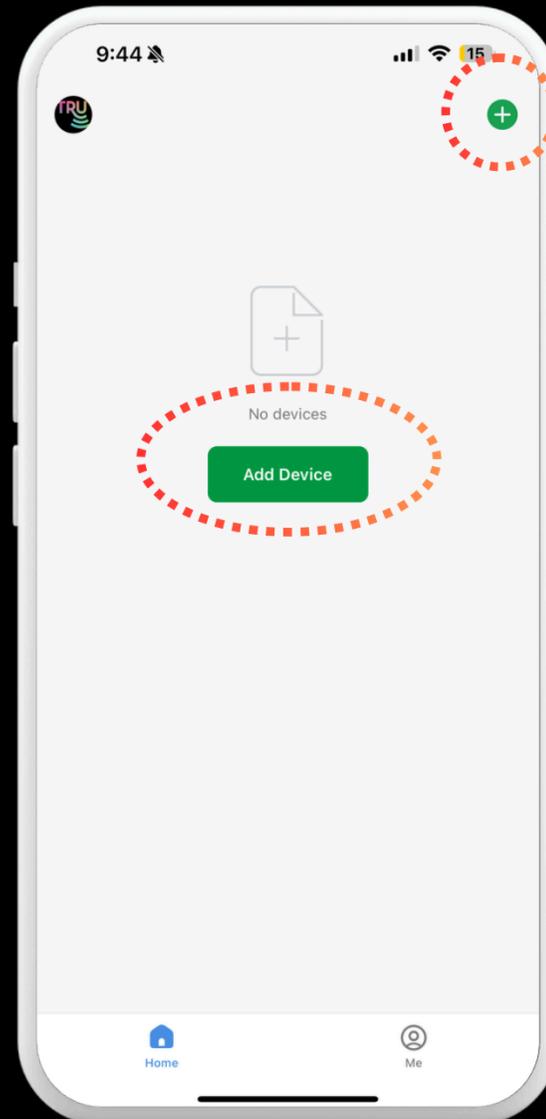

## Step 5: Add Transformer

- Select Transformer from the list.

## Step 6: Connect to WiFi

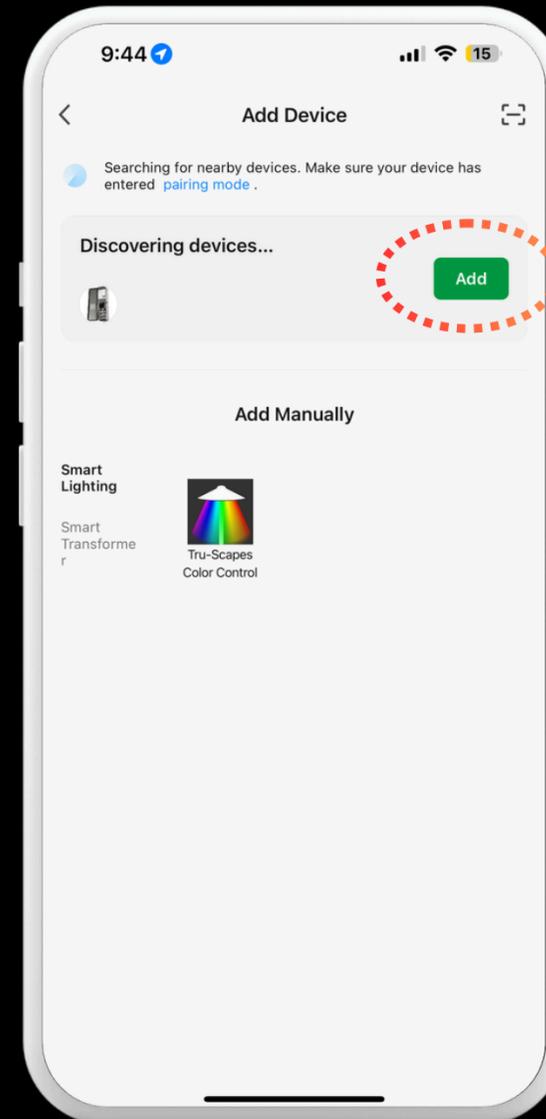

- Connect to WiFi and enter the password.
- Avoid Bluetooth for long-term control; it's only for temporary setup.
- WiFi enables remote access, scheduling, and smart automation, while Bluetooth requires proximity.
- Ensure your WiFi network is 2.4GHz.

Step 4

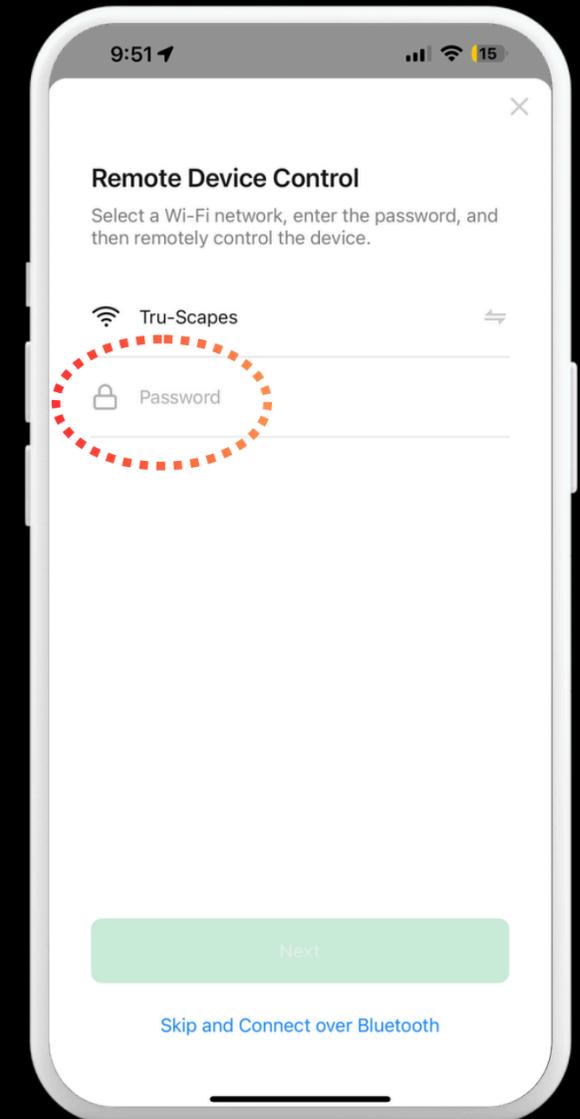

Tap the plus icon or Add Device

Step 5

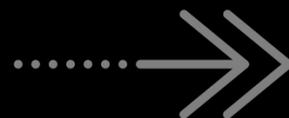

Tap Add

Step 6

Connect to WiFi

Continue To Next Page  
for steps 7 - 9

# WiFi SETUP & CONNECTIVITY

## Step 7: Wait for Successful Connection

- Allow the transformer to complete the connection process.

## Step 8: Tap Done

- Once the connection is successful, tap "Done" in the app.

## Step 9: Confirm Connection

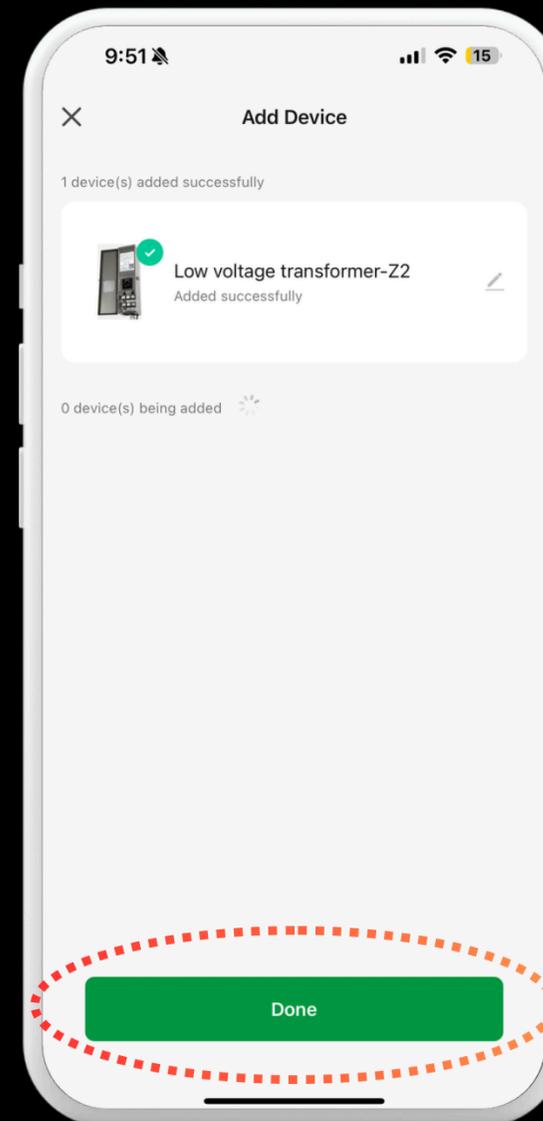

- Ensure the WiFi indicator light is solid green on the transformer.
- Test control through the app to verify functionality.

Step 7

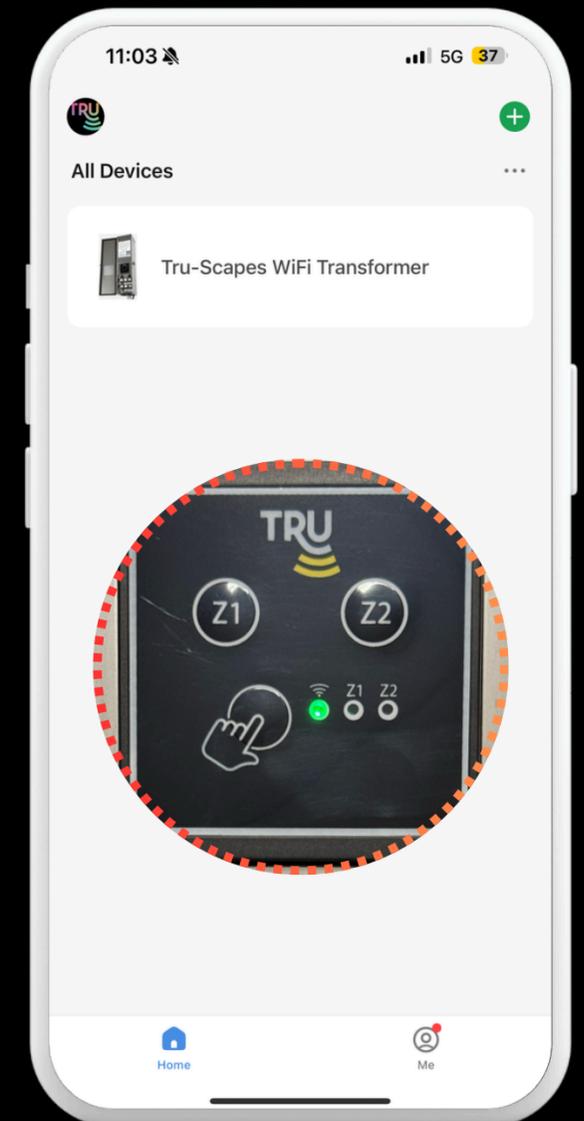

Wait for Successful Connection

Step 8

Tap Done

Step 9

Confirm Connection on Transformer

# APP CONTROL & RENAMING

## How to Operate Transformer (On/off)

### Step 1: Tap Transformer Under All Devices

- Tap on the transformer within the All Devices section.

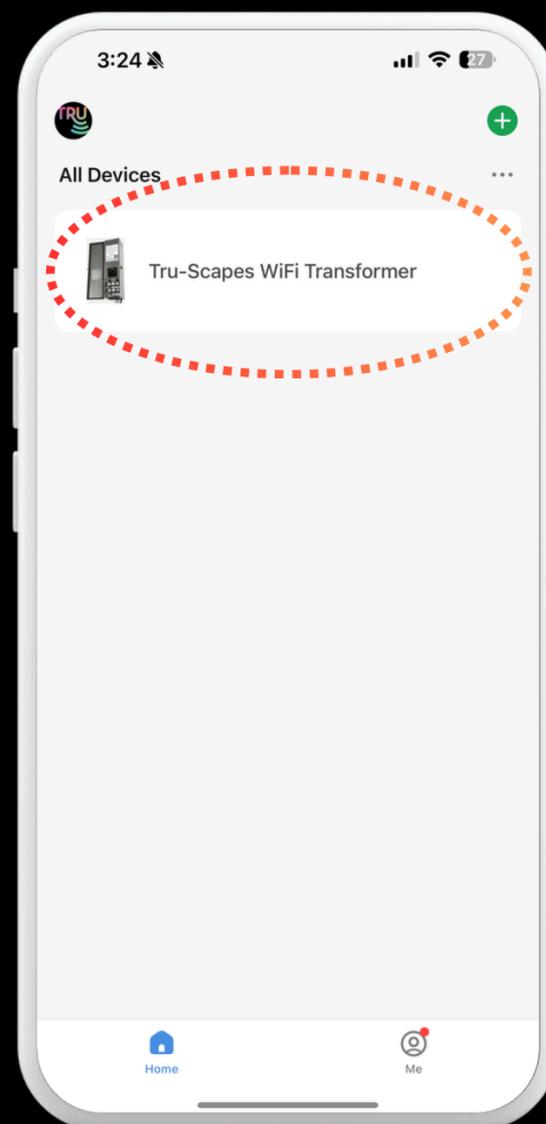

### Step 2: Tap the Top Power Button

- Press the top power button to turn on/off ALL zones within the transformer.

### Step 3: Tap the Lower Power Buttons

- Alternatively, press the lower, larger power buttons to turn on/off SPECIFIC zones individually.

Step 1

Tap Transformer

Step 2

Tap Top Power Button

Step 3

Tap Specific Zone Power Buttons

# APP CONTROL & RENAMING

## How to Rename Transformer and Zones

### Step 1: Tap Transformer

- Tap on the transformer within the All Devices section.

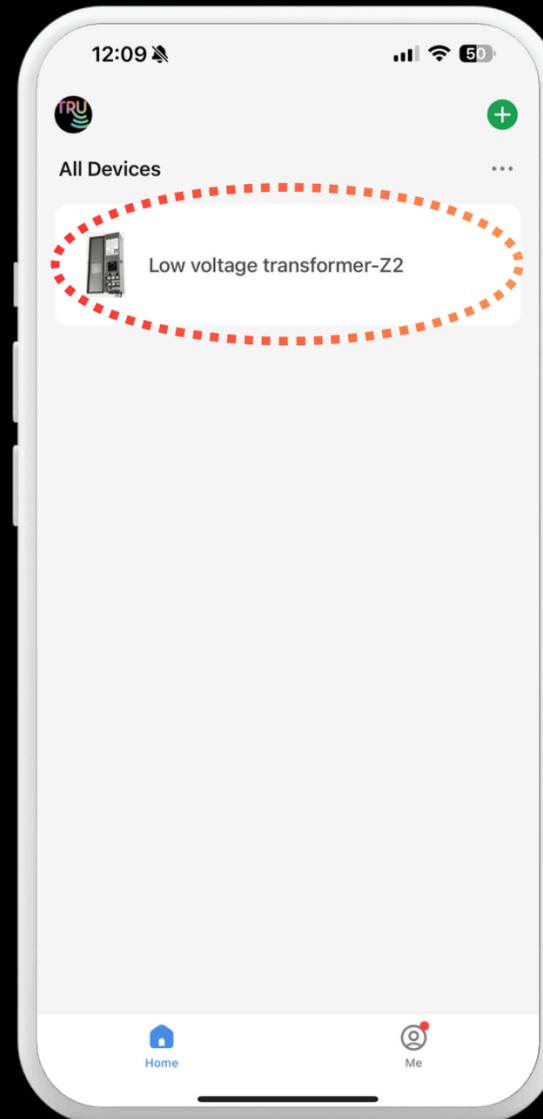

### Step 2: Tap Pencil

- Click the pencil icon in the upper right to rename the Transformer or the pencil next to the Zones to change their names.

### Step 3: Tap Pencil Again

- Tap the pencil icon in the top right corner.

Step 1

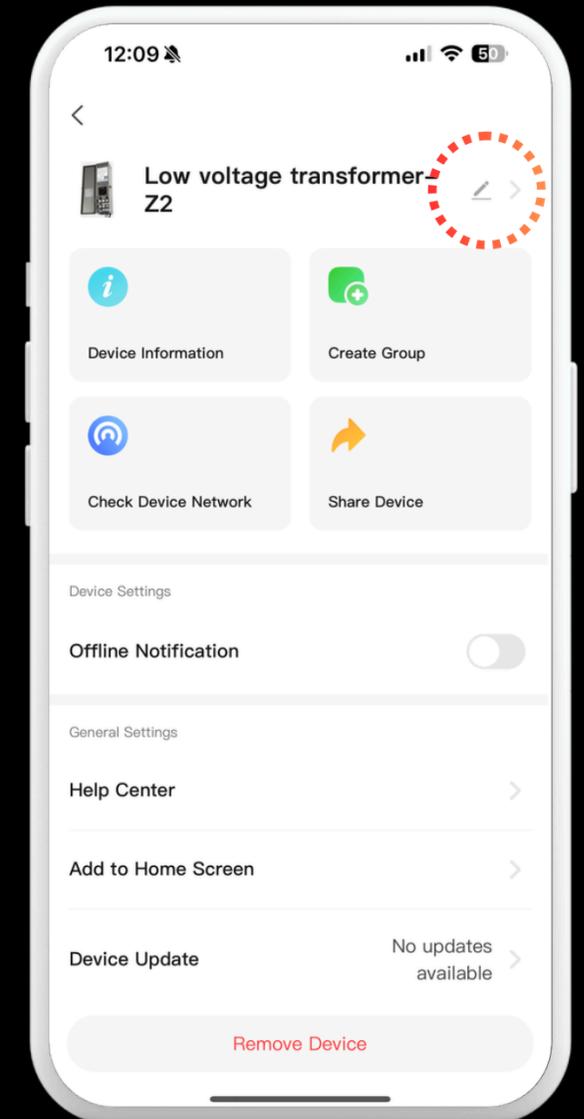

Tap Transformer

Step 2

Tap Pencil

Step 3

Tap Pencil Again

for steps 4 - 6

# APP CONTROL & RENAMING

## Step 4: Tap Name

- Tap on the name of the Transformer you want to rename.

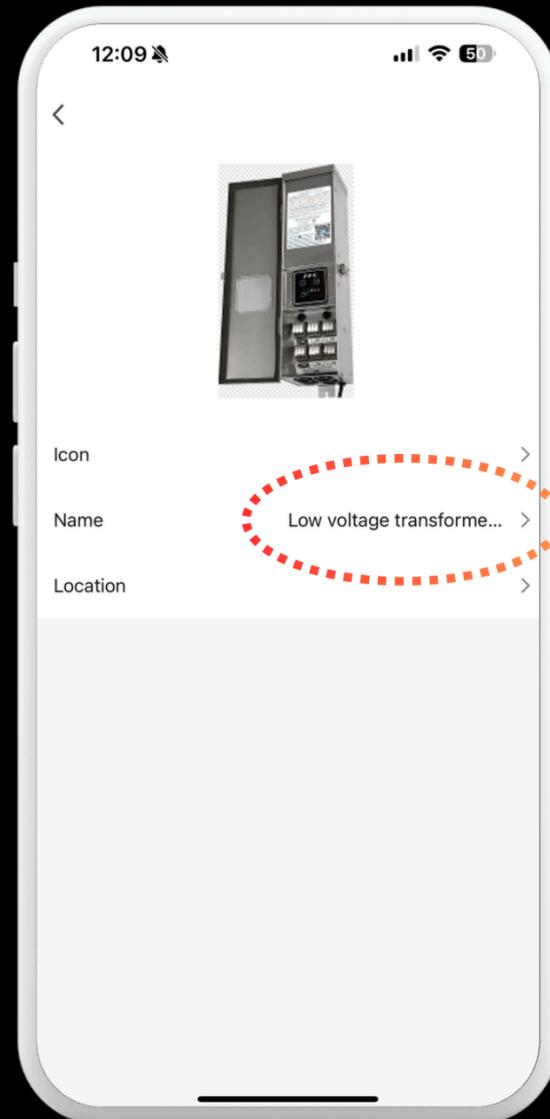

## Step 5: Enter Name and Tap Confirm

- Type in the new name for the Transformer and confirm.

## Step 6: Exit and Confirm Changes

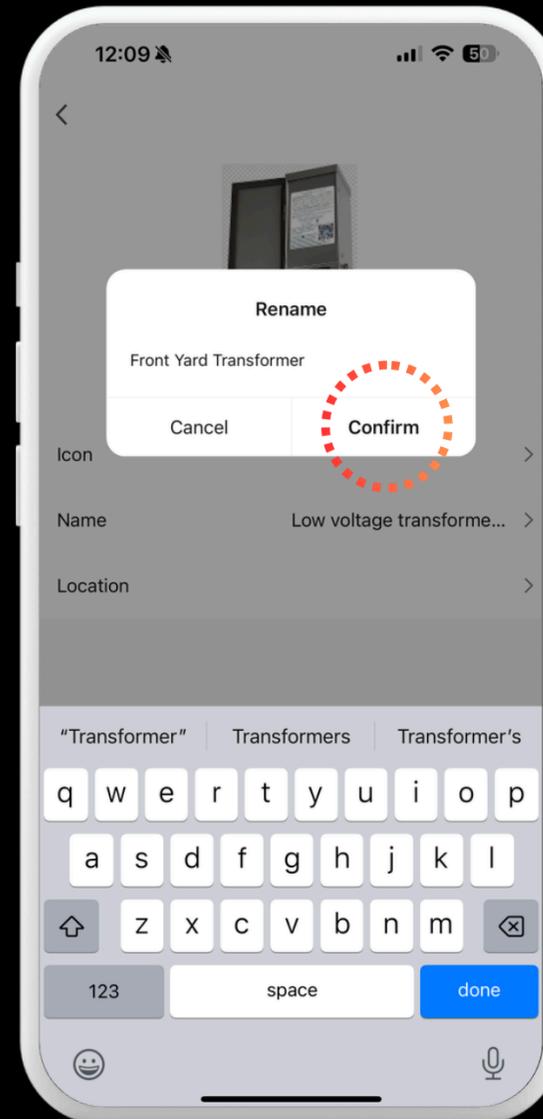

- Tap the back button located in the top left corner to view the new name for your Transformer.

Step 4

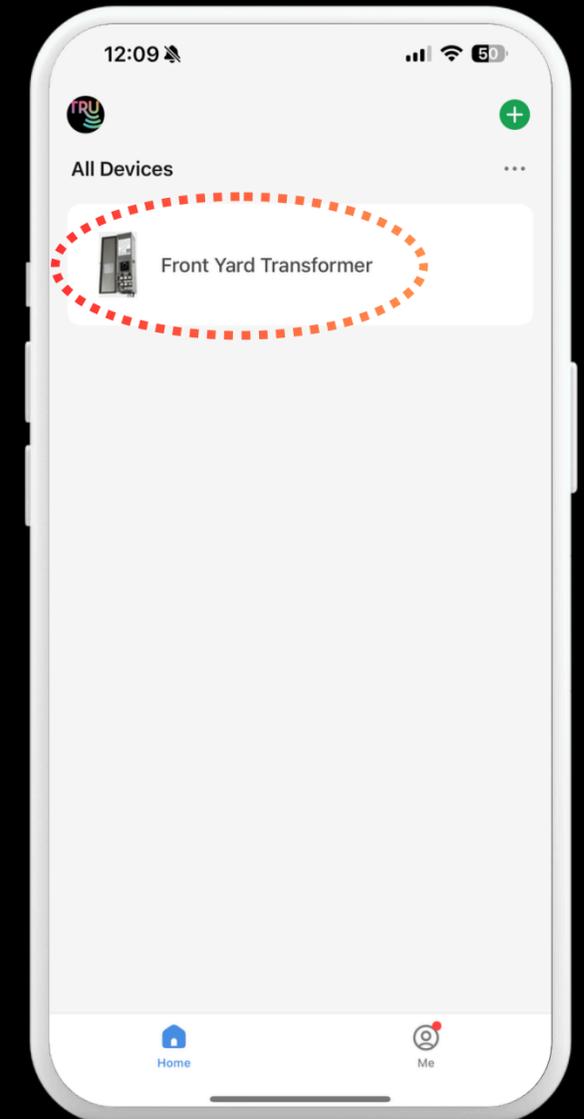

Tap Name

Step 5

Tap Confirm

Step 6

Final

# ADDING SCHEDULES

## Step 1: Tap Transformer

- Tap on the transformer within the All Devices section.

## Step 2: Tap Clock Icon

- Underneath each transformer's zone is a clock icon representing schedules.

## Step 3: Add Schedule

- Ensure the Schedule option on the right is selected.
- Tap + Add Schedule at the bottom.

Step 1

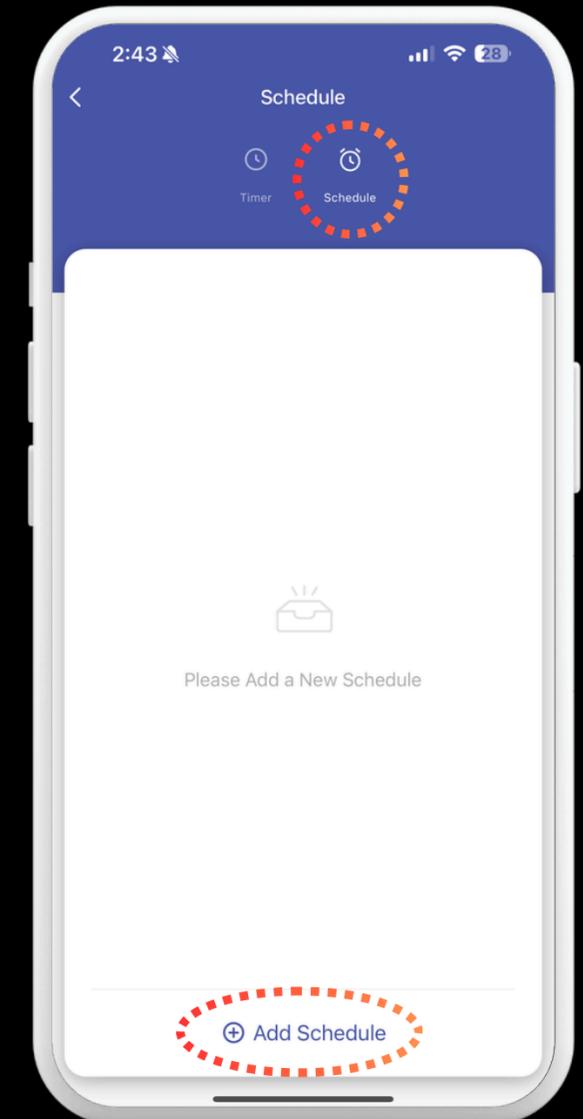

Tap Transformer

Step 2

Tap Clock Icon

Step 3

Add Schedule

for steps 4 - 6

# ADDING SCHEDULES

## Step 4: Select and Save

- Select your time, AM/PM, days of the week, and ON if this is when you want your schedule to start.

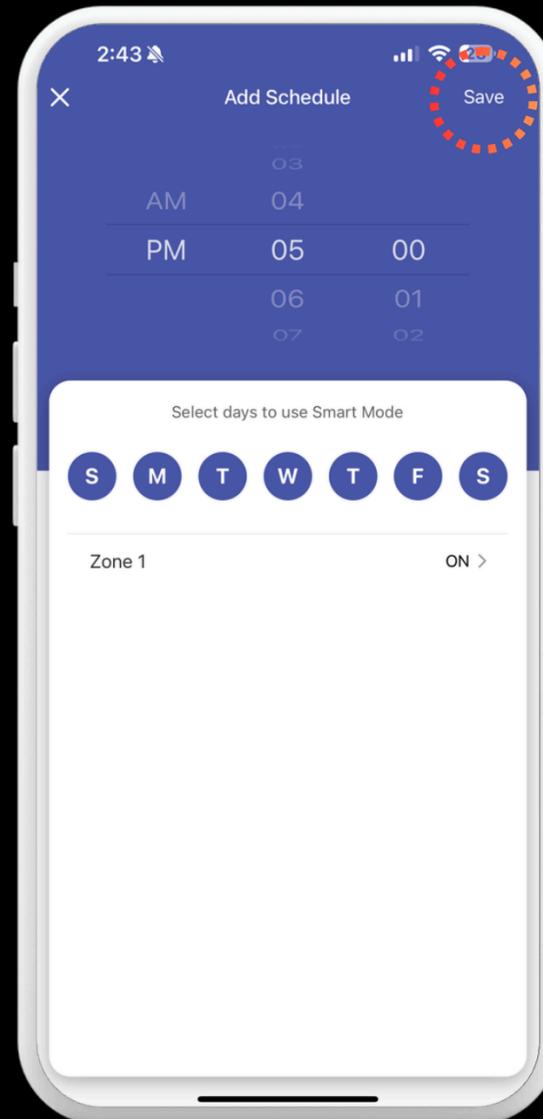

## Step 5: Add Another Schedule

- Ensure the Schedule option on the right is selected.
- Tap + Add Schedule at the bottom.

## Step 6: Change to OFF

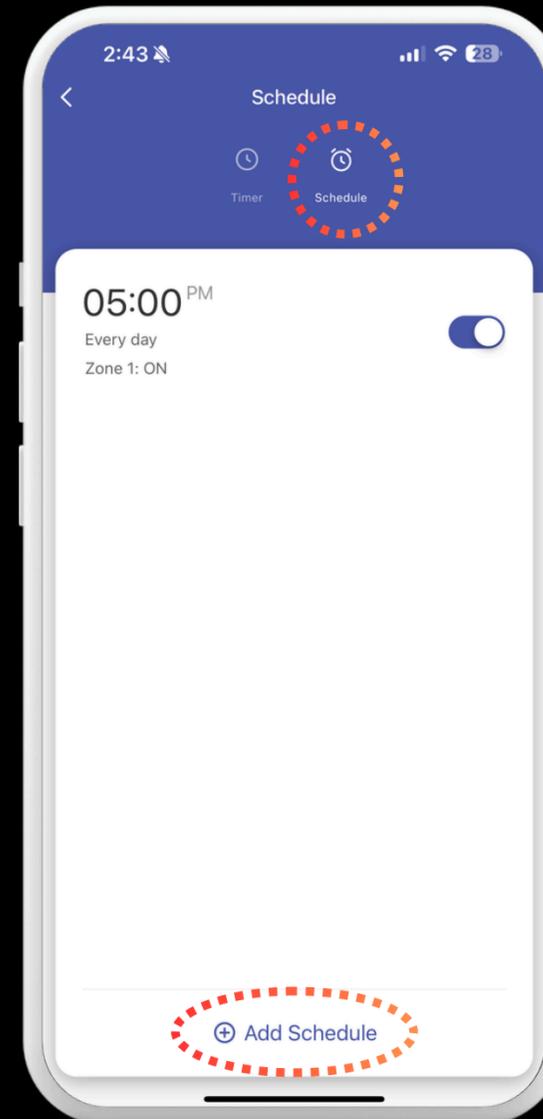

- Tap the section beneath the days of the week to change the setting from ON to OFF.

Step 4

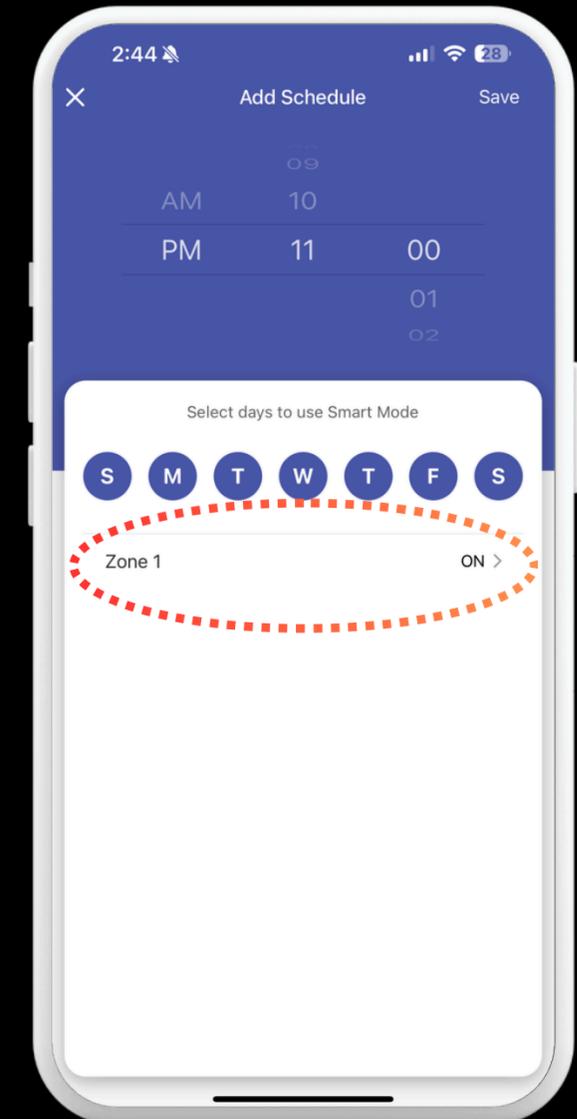

Select Date/Time and Save

Step 5

Add Another Schedule

Step 6

Tap Here to change to OFF

# ADDING SCHEDULES

## Step 7: Select OFF and Confirm

- Scroll down to OFF and tap Confirm.

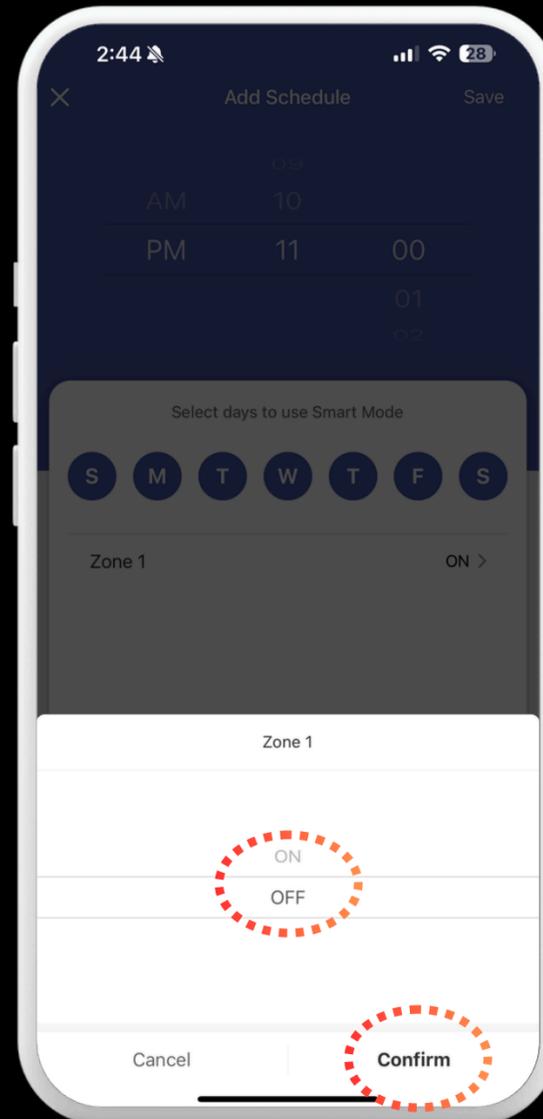

## Step 8: Select and Save

- Select your time, AM/PM, days of the week, and make sure OFF is selected if this is when you want your schedule to end.

## Step 9: Double Check ON/OFF

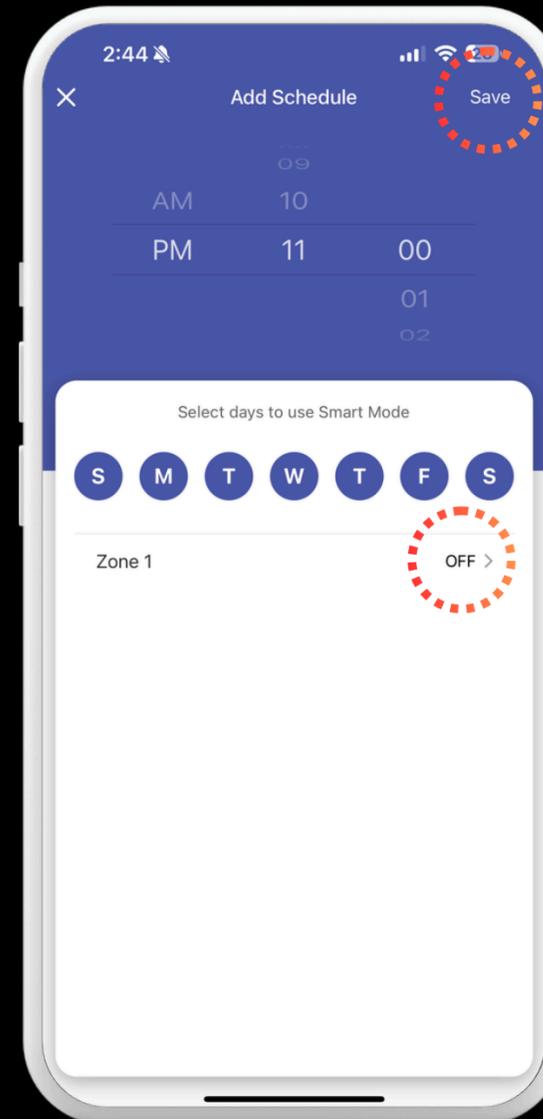

- Make sure your schedules are correct by double-checking times, dates, and ON/OFF settings.

Step 7

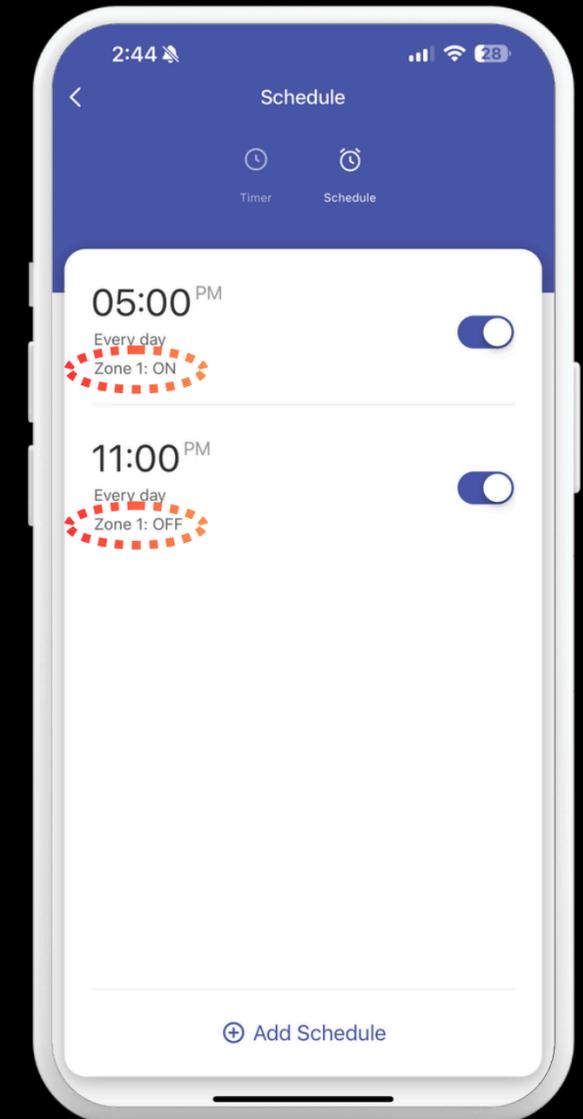

Select OFF and Confirm

Step 8

Select Save

Step 9

Select Room

# TROUBLESHOOTING & SAFETY

## Important Safety Information

- Do not install within 10 feet (3m) of a pool, spa, or fountain.
- For use with 12V low-voltage outdoor landscape lighting only. Not for use with submersible lights or pool/spa equipment.
- The power supply unit is not serviceable. However, the Timer/App module is removable for servicing or replacement if needed.

## Regulatory Compliance

- This device complies with FCC Part 15 regulations. It must not cause harmful interference and must accept any interference received, including that which may cause undesired operation.

## Limited Warranty

- This product is covered by a one-year warranty against defects in workmanship and materials. For warranty details and claims, visit [tru-scapes.com/warranty](http://tru-scapes.com/warranty).

## Need Help?

- For FAQs and the latest user guides, visit [tru-scapes.com/faq](http://tru-scapes.com/faq). For customer support, email [contacts@tru-scapes.com](mailto:contacts@tru-scapes.com).

## Troubleshooting Tips

- **Ensure your Wi-Fi network is 2.4 GHz (not 5 GHz).**
- **Check Wi-Fi functionality with another device (e.g., phone) before troubleshooting the transformer.**
- **If the connection is weak, move the transformer closer to your Wi-Fi router.**
- **Double-check your Wi-Fi password (case-sensitive) before entering it.**
- **Refer to the App User Guide for additional troubleshooting steps.**
